Professional Summary

B.E. Computer Engineering student graduating in 2027 with knowledge of **Java, Python, JavaScript, SQL, Object-Oriented Programming, and Data Structures and Algorithms.** Hands-on experience developing web applications, integrating APIs, and working with databases. Familiar with Git, debugging, and software development workflows. Seeking a Software Engineer Intern opportunity to solve technical problems, build reliable software, and contribute to collaborative engineering projects.

Technical Skills

Programming Languages: Java, Python, JavaScript, SQL
Web Technologies: HTML5, CSS3, Bootstrap, React.js
Backend Development: Spring Boot, Node.js, Express.js, RESTful APIs
Databases: MySQL, MongoDB, SQLite, SQL Joins, Aggregate Functions, Window Functions
Core Concepts: OOP, DBMS, Data Structures and Algorithms, Exception Handling, Problem Solving
Tools: Git, GitHub, VS Code, PyCharm, IntelliJ IDEA

Technical Training

Trainee Java Full Stack Developer *Sep 2026 – Present*
Fortune Cloud, Pune

- Strengthening Java fundamentals, OOP concepts, and problem-solving skills.
- Learning to develop and integrate RESTful APIs using Java and Spring Boot.
- Practicing SQL queries, database operations, and MySQL application integration.
- Gaining practical exposure to frontend development, debugging, and full-stack application workflows.

Projects

AI Resume Analyzer and Job Recommendation System */React.js, Node.js, Express.js, MongoDB*

- Developed a web application using the Google Gemini API to analyze resumes and extract candidate skills.
- Built interactive React.js components for resume upload, analysis, and results presentation.
- Integrated frontend components with backend services using Node.js, Express.js, and API requests.
- Implemented MongoDB integration to store and retrieve application data and support application workflows.

Employee Skills and Internal Mobility Platform */Java, Spring Boot, MySQL, Bootstrap*

- Developing a platform to manage employee profiles, technical skills, and career development information.
- Designing skill-assessment features to identify employee skill gaps and missing competencies.
- Planning role-matching and learning recommendations based on employee skills and career requirements.
- Structuring the application around Java backend development, database integration, and a responsive interface.

Travels and Tourism Website */HTML, CSS, JavaScript, Bootstrap*

- Developed a responsive website showcasing tourist destinations and travel-related information.
- Designed structured webpages with destination details and organized content sections.
- Used Bootstrap and CSS to create layouts for desktop, tablet, and mobile screens.
- Implemented JavaScript interactions to improve website usability and navigation.

Fab Rental – Online Clothing Rental System */HTML, CSS, JavaScript*

- Developed a web-based clothing rental interface to display clothing options and rental information.
- Created user-friendly layouts to help users browse available clothing options.
- Organized clothing details into structured sections with clear navigation between pages.
- Applied responsive styling and JavaScript interactions to improve frontend usability.

Education

B.E. in Computer Engineering *Expected June 2027*
SSBT's College of Engineering & Technology, Jalgaon
CGPA: 7.38/10

HSC – Science *March 2023*
Dhanaji Nana Junior College, Khiroda 87.88% (College Topper)

SSC – Science *March 2021*
Dhanaji Nana Vidyalaya, Khiroda 85.50%

Certifications

- HackerRank – Skill Certification
- Microsoft Azure AI Fundamentals
- Java Development Internship – InternNova, 2026
- Artificial Intelligence Fundamentals – IBM, 2025
